

Addtech Energy

Addtech Energy markets and sells battery solutions, power distribution products, and products in electrical safety, electrical installation and connection technology. Its customers mainly operate in the energy and telecom sectors and the commercial vehicle industry. Examples of products: stationary batteries for UPS systems, batteries for electric vehicles and defibrillators, disconnectors for the medium voltage distribution network, transformers, cable cabinets, carbon brushes, fuses and measuring transducers. In addition to trading, this area's companies also manufacture niche products under their own brands.

The description of the operation and financial information are pro forma based on the new organisation as at 1 April 2012.
